

**DESCRIPTION**

The DATL/DAT damper is designed to admit an insulation thickness of up to 50mm. This damper is applicable wherever completely airtight shut-off is required. The damper blade can be adjusted on the handle within a range of 0° to 90°. The blade can be locked using a screw. The DAT type is an airtight shut-off damper and the DATL has got additionally gaskets on flanges.

**DIMENSIONS**

ØD [mm]	Weight [kg]	Torque [Nm]
100	0.50	1.0
125	0.55	1.0
140	0.60	1.0
150	0.65	1.0
160	0.70	1.0
180	0.75	1.0
200	0.80	1.0
224	0.90	1.5
250	1.10	1.5
280	1.30	2.0

ØD [mm]	Weight [kg]	Torque [Nm]
300	1.40	2.0
315	1.50	2.0
355	1.90	4.0
400	2.50	6.0
450	3.50	7.0
500	4.00	8.0
560	4.60	9.0
600	5.00	10.0
630	5.40	10.0
